

TERMS & CONDITIONS

Stadium Oil Heat's goal is to include all eligible tanks on TANK-GUARD'S oil tank protection program. See # 3 below for eligibility.

1. Stadium Oil Heat believes that the TANK-GUARD oil tank protection program is a valuable service and wants to maximize the benefit to its customers. The most reasonable way to enroll such a large number of oil tanks is to make the program available on a provisional basis to all of our regular customers who are not already participating. We have decided to accomplish this by enrolling all of these customers in November with a provisional charge which you may decide either to accept or decline. If you notify us of enrollment, your tank warranty protection will be effective November 30, 2008.
2. If you accept this annual oil tank protection, it will be automatically renewed each year unless terminated by either you or Stadium Oil Heat.
3. Not all tanks will be eligible for the oil tank protection program. When an ineligible tank is identified, we will remove the charge from your account, or issue an account credit for payments already made. Ineligible tanks include repaired tanks, tanks that are leaking as of November 1, 2008, tanks with excessive external rust, underground and partially buried tanks. Please notify us if you think that your tank is not eligible and we will remove it from the program.
4. The TANK-GUARD oil tank warranty is provided by Lincoln Laboratory and is limited to the terms of the "TANK-GUARD ANNUAL LIMITED WARRANTY" as printed in the enclosed brochure.
5. The warranty benefit is limited to tank replacement and does not extend to emergency service or environmental cleanup. New tanks will be installed in accordance with safety codes. Costs for permits and some safety code upgrades (if required) will be extra.
6. This program does not guarantee that your tank will not fail. Please remember to check your oil tank regularly and call us immediately at the first sign of any leak.
